MACORIS A SUFFERER

This Place, Which Is an Important Shipping Point, Is Supposed to Have Been Bombarded Before Notice Is Given.

New York, Nov. 11.—Fifth avenue, in the vicinity of St. Thomas' Episcopal church, where Miss May Goelet and the Duke of Roxburgh were married by Bishop Doane, was the scene before and during the ceremony of excitement and disorder unparalleled at any of the previous great weddings in New York. From the church to the Goelet residence, a distance of five blocks, the avenue was a surging mob, numbering fully 10,000 persons, mostly women, whom a force of 300 policemen was powerless to hold in check.

Before the service began several hundred women gained entrance to the church and seated themselves in the galleries, from which they were forcibly dislodged by a squad of police a few minutes before the arrival of the bride. When the carriage containing the bride-to-be and her brother, Robert Goelet, neared the church it was surrounded by women who slipped the horses, and in their efforts to see the bride, clung to the carriage, some of them getting on the steps and thrusting their heads into the open windows. Mr. Goelet called to the police, but it was some moments before the half dozen policemen, who rushed to the rescue, were able to drive the curious women back and enable the carriage to proceed.

When the carriage of Mr. and Mrs. Cornelius Vanderbilt, which was just ahead of the bride, reached the canopy leading from the curb to the church, the crowd of women banked up twenty-five feet deep on either side, rushed frantically forward, carrying the solid lines of policemen with them, and for a moment choked the entrance. They were forced back only to again rush forward when the bride's carriage drew up. By this time policemen from other points had been called there, but in spite of them half a dozen women stooped down, lifted the canvas of the canopy and crawled partly under. They crawled to their positions notwithstanding all efforts of the police to pull them away, and several of them managed to keep their heads under the canopy until the bride had passed up. A patrolman caught over very well dressed woman by one of her ankles and dragged her along the walk, she still clinging to the canopy until she was forced to loosen her hold. She was lifted up smiling and satisfied. She had seen the bride.

On the Fifty-third street side of the church well dressed women crawled down into a coal hole leading underneath the chancel. They could see nothing, but could hear what was going on above. Policemen had to get in and drive them out.

Four hours after the ceremony Fifth avenue was still crowded with curious women, many of whom were laden with spoils from the church decorations, for after the invited guests had left, the mob crowded into the church and proceeded at once to tear the chrysanthemums and lilies from the pew entrances. In a few minutes they began to break the leaves from the palms, and before they could be stopped the church was despoiled of many of the floral decorations.

FOR POSTMASTERS.

Some of the Names Sent to the Senate on Tuesday by President.

Washington, Nov. 11.—The following are some of the names submitted by the president to the senate for confirmation as postmasters:

Indian Territory—John A. Porter, Tishomingo; Arthur L. Morgan, Bartlesville; John E. Bruin, Bristow; Enoch Needham, Hugo; Charles J. Lane, McAlester; Phillip K. Connaway, Minco; Elevis J. Sullivan, Pryor Creek; Harland J. Butler, Miami.

Oklahoma—George A. Ahern, Frederick; L. H. Boshier, Pawnee.

Texas—Albert L. Gibbon, Guffey; W. E. Connelly, Hubbard; D. A. Robinson, Dallas; Ella V. Flannagan, Henderson.

LABORS ENDED.

Four States Immigration League Listen to Important Talks.

New Orleans, Nov. 11.—The Four States Immigration league has completed its work. Much of the final session was taken up by short talks by the delegates on the commercial and agricultural development of the respective committees. The desirability of immigration and the opportunities which Louisiana, Mississippi, Texas and Alabama present to thrifty homeseekers, were strongly pointed out. Dr. H. A. Barn of Beaumont, Tex., read a paper to show that the gulf coast country was as healthy as any similar stretch of country in the north or east. Colonel J. F. Mornick, immigration agent of the Illinois Central railroad, said the country had supplied a mass of invaluable information that would be used throughout the country on the crops that could be raised in various parts of the south.

Washington, Nov. 11.—The state department received a dispatch from United States Minister Powell at San Domingo in which the minister says: "Macoris has just been bombarded by a San Dominican naval vessel and partly destroyed. The ship then returned to San Domingo City. The American interests in Macoris are very considerable."

"Macoris has just been bombarded by a large business with the United States, and the bombardment is supposed to have occurred without the required twenty-four hours' notice. If it appears that American interests have suffered by arbitrary action at the hands of the Dominican government the state department will demand full redress, and the cruiser Baltimore, now at Puerto Plata, undoubtedly will prevent further happenings of this kind. Two German warships which started from St. Thomas also are available by this time to aid in the maintenance of order."

The state department Tuesday night received a cablegram from Minister Powell at San Domingo dated at 4 p. m., Tuesday, reporting the situation at San Domingo to be extremely serious. The dispatch, it was stated, was the first the department had received on the day it was filed since disturbances began.

The revolutionary forces which now surround this city attacked San Domingo, using artillery, but no damage was done. The revolutionary commander sent a messenger under a flag of truce to demand the surrender of the capital, which was refused, and hostilities were resumed.

San Domingo is safely fortified, and provisions are plentiful.

COMMUNICATION CUT OFF.

Colombia Has Established a Censorship Over Certain Cablegrams.

Washington, Nov. 11.—The state department was notified that the Colombian government has established a censorship over cablegrams destined for the interior of Colombia reaching Buena Ventura. This practically cuts off free communication between Bogota, the capital of Colombia, and the outside world. It may delay communication with United States Minister Beaufre, but the United States government will not submit to any suppression of its dispatches so long as the telegraph route is open at all.

Not a Shot Fired.

Colon, Nov. 11.—The steam launch sent to Bocas del Toro Thursday last to capture that place in the name of the new republic of Panama has returned here and the officers report that the place was captured and the flag hoisted without a shot being fired. No difficulties whatever were encountered. The majority of the officials of Bocas del Toro are natives of Panama and expressed themselves as rejoiced at the course affairs had taken on the isthmus. The people of the town were jubilant at the news.

Nothing Known of It.

Berlin, Nov. 11.—Foreign Secretary Von Richtofen informed Ambassador Tower that there is no truth whatever in the report of the intention of Colombia to appeal to Germany, and nothing is known here of any intention to make such an appeal.

Jimenez President.

Cape Haytien, Nov. 11.—A dispatch from Monte Criston says it is reported that San Domingo has capitulated to the revolutionists, and that General Jimenez has been proclaimed president of the republic.

Considered at an End.

Paris, Nov. 11.—A dispatch received from Cape Haytien says that after three days fighting President Wos y Gil took refuge in the German consulate at San Domingo. The revolution is considered at an end.

RIGHT TO INITIATE.

This Was the Chief Topic at the White House Conference.

Washington, Nov. 11.—The president Tuesday night had a conference with a number of leaders in both houses of congress. Those who called on him at the white house were Secretary Moody, Speaker Cannon, Senators Allison, Aldrich, Platt, Spooner, Hanna, Hale, Lodge and Wetmore and Representatives Payne, Dalzell, Tawney and Hemenway.

It developed that the controversy between the house and senate over the right of the former to initiate all revenue legislation was the chief topic of conversation. The members of the house claimed that the present treaty provides that during the life of the convention the duty on sugar shall not be reduced either by treaty or convention. To concede the position

of the senate, they assert, would be a surrender of their constitutional powers. It was said that unless the contention of the house is admitted there will be the same difficulty presented as at the last session, with the probability that the measure will be defeated. No conclusion was reached by the conference.

For Postmaster of St. Louis.

Washington, Nov. 11.—Frank Wyman was nominated to be postmaster at St. Louis. He is a brother of Surgeon General Wyman of the public health and marine hospital service.

SEVERE FIGHTING.

This Will Probably Result When Hottentots Are Met.

Kenhardt, Cape Colony, Nov. 11.—Hottentot rebels numbering about 1500 men are approaching the border. Police have been dispatched to the scene, the volunteers have been called out and a severe fight is expected.

Three freight cars of a train were wrecked at Elinger, Tex., but no one injured.

Collier's Weekly says of the 236 counties in Texas 104 are wholly dry, and of the remainder 74 are largely dry, many of them all but the county seat, and only 58 are wholly wet.

E. H. R. Green of the Texas Midland railroad is going to establish an experiment farm near Terrell for the purpose of ascertaining methods of forcing cotton to early maturity.

At a meeting of the Eastland County Farmers' Institute just held the school teachers of the county were present in numbers to gather ideas for instructing their pupils in the science of agriculture. Teachers of other counties will do well to follow this progressive lead. It will not be very long before manual training and scientific agriculture and animal husbandry will be regularly taught in the schools and those who get ready for it soonest will be the leaders and most in demand.

MORE ABOUT THE HOG SHOW.

At the Eagle's Hog Show, on November 21, there will be no charge for admission to see the show, no entry fees for exhibits, and pens for hogs when wanted, will be furnished free of charge. No charge for anything in connection with it. The full list of premiums and cash prizes is printed elsewhere in this paper.

The Eagle has received the following letter from Prof. John A. Craig, Dean and Director of the Agricultural Experiment Station, College Station:

College Station, Nov. 10, 1903.--The Bryan Eagle, Bryan, Texas: Prof. Marshall has just informed me of your intention to hold a show of swine at Bryan. This is a capital idea and I hope it may be pushed to a successful issue. I can only take time now to say that we stand ready to help you to the fullest possible extent. I do not know of any portion of United States or Canada where hogs may be reared and pork made cheaper than in our own locality. I have asked Prof. Marshall to help you all he can and I shall be pleased to do the same.

I may say further that we might make a show of certain features of equipment for swine raising, and also representatives of some of the breeds we have here, if you consider this desirable.

Yours very truly,

John A. Craig, Dean and Director.

Prof. Craig's kind offer to make an educational exhibit was of course accepted. The College exhibit will not compete for premiums or cash prizes, but is given as an educational feature and will be of great interest and value.

The tax collectors say that the new poll tax receipts are a fright, and require three or four times as long to make them out as the old one. They give a man's place of residence and biography and four copies of each has to be made by the use of carbon sheets, making the writing slow and difficult. The result will be that if everybody waits until after January 1 to pay poll tax a good many people are going to get left because the collectors will simply not have time to issue the receipts. There are 3256 polls assessed in Brazos county and only 100 poll tax receipts have been issued to date, and all of these except two were to property tax payers.

Mrs. J. W. Boyd of McGregor and Mrs. C. R. Mayfield and baby of Waco arrived yesterday to visit relatives and are guests of Mr. and Mrs. G. S. Parker. Unusual interest attaches to their visit from the fact that they came to have a family picture made with representatives of five generations. Mrs. D. A. Lawrence is the mother of Mrs. S. M. Darden. Mrs. Darden the mother of Mrs. J. W. Boyd. Mrs. Boyd the mother of Mrs. Mayfield, while the latter's baby completes the remarkable group.

There is an enormous territory affected by the boll weevil this year, and all over that big section of Texas, the farmers are ordering improved early seed from North Carolina. The supply of the choicest seed will be exhausted before long, hence it will pay you if interested, to get a supply of King's Improved Early Seed from Carson & Sewall, Bryan. 291

On Tuesday near Myers, Burleson county, the 5-months-old baby of Mr. and Mrs. D. D. Rice was burned to death. Both father and mother were at work at the time, the former gathering corn and the latter picking cotton, and they are unable to account for the tragic accident, which was discovered too late to save the child's life.

E. A. Skiles was here yesterday from Plano buying Brazos county corn. Our people will begin to realize how prosperous they are when brought to the knowledge that they are selling corn to North Texas. He was paying 42 cents per bushel free on board car at Bryan.

The Georgia Minstrels.

The great Georgia Minstrels—Billy Kersands and his great aggregation of artists, filled the opera house down stairs and galleries, Tuesday night, until standing room only was all that was left. Everybody was there—society people, home people and visitors, and all laughed and enjoyed the show to the very utmost.

This company have been favorites for many years, and their popularity instead of waning, seems to increase as the years go by. Many of the old jokes and features were done over, but interspersed with them were a number of good new songs and witty monologues and dialogues. The inimitable "Billy" will never be without an audience in Bryan.

Cotton Receipts.

The cotton receipts of the local yards and warehouses to date this season are as follows:

Lawrence Warehouse.....	7612
Brick Warehouse.....	4987
Stover's Cotton Yard.....	1127
Total.....	13726
Round Bales.....	1840

For the benefit of the agricultural interest of this section, Carson & Sewall of Bryan have ordered and have in transit from North Carolina, a supply of King's Improved Early Cotton Seed, with which the farmer can beat the boll weevil next season. They are receiving orders rapidly, and no man who is interested should fail to get a supply. 291

Better not fool around waiting for somebody to get "Cheap" early cotton seed for you until it is too late to get them at all that are any good. Carson & Sewall of Bryan have made a purchase of seed, and are taking orders. They have King's Improved Early Cotton Seed from North Carolina. 291

S. S. Rosier of Edge called on the Eagle yesterday. Mr. Rosier is original in that in spite of the boll weevil and everything else he is not talking hard times. He says he fails to see where such talk betters conditions any, and when people begin with a hard luck story he wants to move on.

The impression prevails with many people that the Eagle's hog show will be at the fair grounds, and some have objected to showing their pigs and chickens so far out from town. The impression is an erroneous one. The show will be held at some place right in town.

J. N. Cole offers for sale a few tons of the genuine Improved Jones Cotton Seed. These seed produce cotton two to three weeks earlier than any other kind, and G. S. Parker, gunner, can tell you how much lint they make compared with other kinds. 295

The commissioners court on yesterday appointed Rev. W. T. Wood justice of the peace in the Harvey precinct to fill the unexpired term of J. M. Powers, who had resigned and moved to Call, Newton county.

The I. & G. N. is hauling some long trains loaded with through freight bound for the gulf ports. As high as sixty cars have been carried in one train.—Marlin Democrat.

Tom May and family, W. C. Rogers, T. R. Tomlinson, Jess Tomlinson, Joe Williams, Willie White, Steve Keifer, John Isgett, Jake Keifer and others were here from Madison county yesterday.

There will be services at the Christian church Sunday at eleven and at night. The members are requested to take notice that it will be State mission day.

Coon Williams, C. S. Jones, A. N. Hall, John Jones, Amou Williams, Jim Reed, John Goen and others of Harvey were here yesterday.

Miss M. Helen Johnson and class will give an elocution recital at the opera house Friday night, Nov. 13. Admission 25 cents. 292

There are now only three prisoners in jail, all three having cases on appeal from convictions at the last term of the district court.

Mrs. McDougald, Lester McDougald, Joe Vance and Miss Bettie Vance were here from Grimes county yesterday.

Travis Beard left yesterday for Waco to attend the state Maccabees meeting as representative of the tent at Edge.

K. P. Jones, called here by the death of his father, returned to Anderson yesterday.

Mr. and Mrs. G. M. Soles left last night for Cotulla, their future home. J. J. and T. R. Tomlinson were here from Edge yesterday.

REPORT ON MILITARY

What the Acting Adjutant General Says on Subject.

FIGURES PRESENTED.

Official Says Journals In Several of the Southern States Criticise In an Unjust Manner This Branch of Service.

Washington, Nov. 11.—The annual report of Acting Adjutant General Hall of the army has been made public. It deals with every phase of the military establishment. The actual strength of the army on Oct. 15, 1903, was 3681 officers and 55,500 enlisted men. There were lost to the army during the year ended June 30, 1903, 29,279 men, as follows: One hundred and thirty-eight officers, of whom twenty-five were killed in action or died of wounds or disease. The remainder represent men discharged for expiration of term of service, for disability, by sentence of court-martial, desertions or retirement.

Attention is directed to the work of the military attaches abroad, which, the report states, has been very satisfactory and proves the wisdom of selecting officers peculiarly adapted to this delicate semi-diplomatic work, which secures to the army the most recent authentic and valuable information at minimum cost.

Over one-half of the report is devoted to the militia, and it gives a detailed account of the workings of the act to promote efficiency of militia passed at the last session of congress. Inspections of the several militia organizations, the report says, were begun on April 25, 1903, and were completed about July 1. The total number of organized militia, including officers of every rank and grade is ascertained to be 116,542.

The adjutant general comments at length on opposition developed in some quarters to militia law, which, he says, is less on the whole than anticipated. He says it is true that certain radical leaders of labor unions regard the militia as a menace to their purposes, although it is doubtful, he adds, if this enmity extends to any considerable portion of their membership.

"Business and professional men connected with organized militia of some states," the adjutant general adds, "feel that they cannot afford to waste time in riots or labor troubles, while they would be perfectly willing to respond in case of war. In Virginia, Georgia and Louisiana the newspapers have prejudiced the minds of militiamen by their distorted views. The fear is expressed in some southern communities that under the president's orders white National Guardsmen might be compelled to serve under a colored commander, and still others believe they are state troops and should not be ordered for duty outside the state. All these examples, however, are to be regarded as sporadic rather than contagious, and as the intent of the law becomes better understood, with perhaps some further legislation, it is believed all opposition will be confined to such irreconcilable elements as are not to be satisfied with anything less than abolition of all agencies that make for preservation of law and order."

Denver, Nov. 11.—Reports from all coal mines were miners are on strike are to the effect that good order is being maintained. Peace authorities are strongly backed by union leaders and are in complete control of the situation. At Trinidad the union headquarters received a request from coal districts for 500 men, and Iowa asked for 150. These are likely to be furnished at once. Colorado Fuel and Iron company officials claim that more men are working in the southern field than on Monday, but the number of miners on strike in the region is conservatively estimated at 7000.
